MANEUVER CAMP HAS BEEN LOST

Mount Gretna Gets Big Camp of Regulars and Militia which Gettysburg Made no Effort to Secure. Month's Event.

(Special to The Times)

Washington, D. C., March 2.—Announcement was made here today that the United States Camp of Instruction including Pennsylvania and adjacent states will be held at Mount Gretna, Pa., from July 5 to August 6.

Gettysburg has lost the maneuver camp. Practically no effort whatever was made by local citizens to secure the big event and after one visit to the Lebanon County resort by Captain E. C. Wells, who was given no encouragement to come here, Mount Gretna was recommended and chosen. Lack of activity here can be blamed for the complete failure of Gettysburg in this most vital business proposition.

One brigade of Pennsylvania infantry will encamp with the Regulars for ten days at Mount Gretna. It is probable that, in addition to the infantry, several troops of cavalry and a battery of artillery will also go to the maneuver camp as was done at the time of the camp here in 1910. The big division encampment of the National Guard of Pennsylvania will be held separately.

This encampment will take place during July though the dates have not yet been officially announced. In view of the fact that it is understood that no government land at Gettysburg is available for encampment purposes, unusual efforts will have to be put forth by local people if the Guard camp is to be secured. Other sites than those used in the past are available for encampment work and, if Gettysburg is to put up any sort of an argument for the camp, these will have to be presented as possibilities when Guard officials come here to go over the ground.

There is no organization here to take up the matter, individual citizens hesitate to do anything for lack of funds and it looks as though even this state encampment—a biennial affair for some years—is in danger of being lost.

HIGH SCHOOL PUPIL'S PLAY

Gettysburg High School Pupils Observe Hundredth Anniversary of Birth of Charles Dickens by Giving Play.

The assembly room in the High School building was crowded on Friday evening for the Dickens' Centenary celebration which included the production of "The Cricket on the Hearth" in three acts. Every available seat was occupied.

The stage, donated by the alumni, was again used together with its footlights and curtain which transform the room into a little theatre. The stage was very attractively arranged with the scenery owned by the school and a real fire "on the hearth" was very well executed.

Paul Weaver, Ralph Oyler and William Troxel opened the entertainment with a musical trio. Will Taylor gave an interesting sketch of Charles Dickens and Miss Myrtle Shelly recited "The World that Dickens Made."

The costumes were very good and all the participants had been very thorough in memorizing their parts. The cast: Jerry Perrybingle, Erie Deardoff; Mr. Tackleton, Harold Ludwig; Caleb Plummer, Daniel Skelly; Old Gentleman, George Kendlehart; Porter, Grover Keckler; Dot's Father, Robert Blocher; Dot, Anna Weaver; Bertha, Beulah Amory; Mrs. Fielding, Etta Speese; May Fielding, Pauline Rudisill; Tilly Slowboy, Sara Reen; Mrs. Dot, Margaret Troxell; Spirit of the Cricket, Hannah Schmuckler. Other characters taken were, Mrs. Varden, Myrtle Shelly; Dolly Trottwood, Astrea Sterner; Barnaby Rudge, Grover Keckler; Little Nell, Lottie Raffensperger, who also gave the prologue; Oliver Twist, Will Taylor; Mrs. Jarley, Elizabeth Sheads.

The net proceeds amounted to about \$60 which will be used for purchasing further equipment for the High School.

YOUTHFUL ELOPERS

Paul Chronister, of Huntington township, and Miss Gertrude Weigle, daughter of Mr. and Mrs. A. M. Weigle, of Latimore township, eloped to Westminster, Md., Thursday of last week and were married the same evening by a minister of that place.

Thursday morning the young lady informed her mother that she and Mr. Chronister were going to York Springs, but when Mrs. Weigle went upstairs a few minutes after the young people had started away she found that the girl had taken along a lot of her clothing. Suspecting an elopement she informed her husband who started after the young couple, but he went only a couple of miles and turned back when he learned that they had gone by the way of New Oxford and that there was no chance to intercept them.

The elopers went direct to Westminster where they were married on Thursday evening and after a short wedding tour returned home on Monday noon. After announcing their marriage to the bride's parents they were forgiven and taken into the family.

The groom is 22 years of age and is a son of Asher Chronister, deceased, while the bride has seen 17 summers.

ACCIDENTALLY SHOOTS HIMSELF

Huber Penn Brushes Loaded Revolver from Table and Weapon Discharges, Bullet Entering his Leg. Not seriously Hurt.

Huber Penn, one of the waiters at Hotel Gettysburg, was accidentally shot in the leg Friday evening as he was preparing to leave the hotel for the night. The bullet entered a short distance above the ankle and followed the bone towards the knee. It was located later in the evening and removed.

Penn, with the other waiters usually quits work at eight o'clock in the evening and had gone to the basement to change his clothing. He laid a revolver on the table which he had been cleaning preparatory to offering it for sale and as he was putting on his overcoat the weapon was brushed off the table to the floor.

As it struck the floor the revolver discharged and the bullet a 38 calibre, entered the leg and ploughed a furrow in the bone, stopping finally some inches from where it entered. Mr. Penn was thoroughly frightened but, after recovering from the shock, he was able to walk to the office of a physician where the missile was taken out. Though confined to his home Penn is getting along well and there are no signs of any serious consequences resulting from the wound.

CASHTOWN

Cashtown Mar. 2.—On Tuesday evening after P. O. S. of A. Camp No. 726 of this place had closed their meeting they called in the McKnightstown Glee Club who furnished music with three violins and other instruments. They were joined by Simon Smith who rattled the bones. This was free to the public and the house was crowded. All enjoyed the music.

Thursday morning G. W. Biesecker who bought the Andrew Whisler property cut down a large tree which was planted in the front yard and measured four feet across the stump. They cut three logs, two 8 feet long and one 10 feet and besides made four cords of wood. This was a tree that was planted 60 years ago. The property was owned by Daniel Kuhn at that time and his son, Abner Kuhn, who is a native of our town, helped to cut the tree and said he helped to plant the tree 60 years ago when he was 14 years of age. The wood of this tree is very white and no one seems to know the variety. The tree by the rings on the stump shows just sixty years growth.

C. A. Hartman, who is one of our first class tree men, is very busy grafting roots for spring planting. He has several hands grafting and expects to put on about 6000 grafts.

The roads through this section are getting very bad as the frost is coming out of the ground. On Wednesday morning Shelly Brothers' team was hauling wheat and, when coming into this place, about the school house, the wagon dropped into the mud up to the axle with one hundred and forty bushels of wheat. Even the six mules were unable to get it away without taking off a great portion of the load.

The same day Isaac Fisher, who was hauling lumber near Miller's store in Hilltown, had his wagon drop into the mud up against the ladders of the wagon.

BRITISH MINERS WILL STAND PAT

Decline Invitation to Meet the Owners.

MILLION MEN ON STRIKE

Coal Shortage Is Already Felt, Factories Closing Down and Railroads Are Taking Off Trains.

London, March 3.—Premier Asquith invited the miners' executive committee to meet the coal owners, but the men declined, saying they had nothing to discuss.

They had, they said, placed their schedule of minimum rates on the table and they would maintain that position until otherwise instructed by the miners.

The miners' delegates are now returning to their respective districts and will submit the whole position to their constituents at week-end meetings. Even should the men approve of the submission of the schedule of minimum rates of wages to discussion the strike could not be arrested under a week.

The shortage of coal has already had disastrous consequences on commerce. Factories are shutting down in all directions, railroads are taking off some of their trains and steamers are being laid up.

One hundred thousand iron workers will be idle in Scotland alone as a result of the strike. The cotton manufacturers in northeast Lancashire have coal enough to keep them going for another fortnight.

Prime Minister Asquith in a statement in the house of commons said the coal owners in practically the whole of England and in the north of Wales had accepted the proposals of the government; that in South Wales and in Scotland the owners had declined the proposition, while the miners have rejected it because they were unwilling to submit the rates for a minimum wage to any form of revision.

All of the underground workers in England, Wales and Scotland except a comparative few ceased work at mid night. Over a million men were affected and this number will be augmented daily through the closing of industries which are dependent on the fuel supply for their existence.

With the exception of a few small collieries all the coal mines of the country are idle. In most of those places where work is still going on notably in Warwickshire, where 10,000 men are employed, the miners will join the strikers. The only mine in the country where the men have decided to remain at work is a little one in northern Wales.

An official return estimates the number of strikers who have already laid down their tools as 1,049,407.

In most of the colliery districts the men are taking advantage of the strike to enjoy a holiday, and no trouble is anticipated. The greatest danger spot is in South Wales, where the union funds are only sufficient to provide strike pay to the men for a short time.

It is expected that if the strike is prolonged for three weeks 500,000 men in the allied trades of London alone will be thrown out of work. It is impossible to estimate the multitude that will ultimately be affected, but it is so large that it will be certain to bring about a general paralysis of British trade.

"The government having recognized the principle of a minimum wage for all underground workers, if it is not secured by agreement it will be secured by the government by other means."

In these words Prime Minister Asquith threw down the gauntlet in the face of the coal owners in the most important speech ever made on the labor question. It is the government's ultimatum to those employers who still remain obdurate.

The threat was uttered by the prime minister before the members of the National Miners' Federation, and it indicates that the government is prepared to go to the length of enacting a minimum wage bill through parliament if the coal owners will not come to agreement.

Gives Aid to Bury Man He Will Hang.
Harrisburg, Pa., March 2.—Sheriff Harry C. Wells, of Dauphin county, sent \$5 to Mrs. Sarah A. Stott, of Syracuse, N. Y., to aid in defraying the funeral expenses of her son, Joseph A. Stott, whom Wells must hang next Tuesday for murder. The sheriff read in a newspaper that the aged mother of the man was taking in washing at her home in Syracuse to pay the expense of moving the body to her home for burial.

Child Falls Against Stove; Burned.
Burlington, N. J., March 2.—Falling against a red-hot stove, the heat from which ignited her dress, Myrtle, the two-year-old daughter of Christian Eckhardt, was probably fatally burned. The little one, just learning to walk, had toddled into the kitchen, and when an older sister, Marguerite, thirteen years old, was aroused by her cries, she found the baby against the stove and her flimsy dress in flames.

Man, Horse and Dog Killed.
Rochester, N. Y., March 2.—Dr. Charles Fairchild, of Bergen, was killed by a New York Central passenger train at Batavia, his body being thrown 100 feet. His horse and dog were also killed.

GENERAL DAMAGE BY SUFFRAGISTS

Smash Windows in Demonstration in London.

London, March 2.—The suffragettes made several violent demonstrations in various parts of London.

Or woman fired a revolver shot through the window of the colonial office. The bullet smashed the window, but hurt no one. Three other women stoned the windows of the official residence of Premier Asquith, breaking three of them.

Window smashing by the suffragettes also was done along Oxford street and Whitehall. A massive window of the Canadian Pacific railroad offices at Charing Cross was shattered.

Several shop windows in Piccadilly were smashed by women and a score or more windows were shattered in stores in the Strand.

In the Haymarket, Oxford Circus and Bond street numbers of other windows were smashed with stones, and pieces of iron.

There were between fifty and sixty arrests, among them being Mrs. Pankhurst.

LEAPS FROM AEROPLANE

First Parachute Jump From Heavier Than Air Machine.

St. Louis, March 2.—For the first time in the history of heavier than air flying a man leaped from an aeroplane at Jefferson barracks and descended to the earth in a parachute.

The man was Captain Albert Berry. The spectacular parachute leap was witnessed by hundreds of soldiers. When the aeronaut landed the soldiers cheered wildly and, surrounding him, lifted him from the ground and half carried him to the office of Colonel Wood, the commanding officer, who congratulated him warmly.

When the aeroplane had reached a considerable altitude Anthony Jannus steered the machine. Berry gave a quick jerk of a rope and a knife flashed. Man and parachute plunged downward, while the aeroplane, bounding up like a cork, suddenly poised and steadied itself.

FOR FREE SUGAR AND INCOME TAX

Democrats Approve Plan For Raising Revenue.

TAX INCOMES OVER \$5000

Expect to Raise Nearly \$60,000,000 to Partly Make Up Loss From Sugar Revenue.

Washington, March 2.—The Democratic caucus ratified the sugar bill and the income tax or excise bill presented by Democratic Leader Underwood, with the indorsement of the ways and means committee. Both bills will now be presented to the house.

In reporting the free sugar bill to the caucus, Chairman Underwood also submitted a bill which in effect would provide an income tax in the United States.

It was proposed that the present corporation tax be extended to include "individuals and co-partnerships doing a business of \$5000 a year or over." Mr. Underwood stated that this practically would accomplish the purposes of an income tax, and at the same time comply with the supreme court decision against the constitutionality of an income tax. The proposed tax would be one per cent.

Chairman Underwood made a statement to the caucus that he had been directed by the ways and means committee to submit a bill to place sugar on the free list and another bill extending the present excise tax, now levied by law on corporations, to individuals and co-partnerships having an annual income of more than \$5000 a year.

In explaining the effect of the bill Mr. Underwood said:

"The bill removing the taxes levied at the customs houses on sugar, imported into this country, will have the effect of reducing the price of sugar to the consumer about 1 1/2 cents a pound."

The statement further says that in the opinion of the ways and means committee the large profits made by manufacturers and refiners of sugar have been due to the customs tariff and that placing sugar on the free list would not destroy the industry in the United States, but would result in a saving to the American people of \$107,000,000.

"The purpose of the excise bill presented to the caucus," Mr. Underwood said, "is to extend the tax on doing of business by individuals and co-partnerships." He then said:

"The special tax will accomplish the same result as would have been accomplished by an income tax if it were within the power of congress to enact an income tax law so far as raising revenue is concerned, but at the same time the bill keeps well within the principles laid down by the supreme court in its decisions affecting the constitutionality of the corporation tax law."

"The bill does not in any way alter, amend or repeal the corporation tax law as it now stands on the statute books," Mr. Underwood said, "but provides that every person, firm or co-partnership shall be subject to pay annually a special excise tax with respect to carrying on or doing business by such persons, equivalent to one per centum on the entire net income over and above \$5000 received by such person from all sources during each year, and further provides that in computing the income of any person there shall not be included the amount received from any corporation, joint stock company or association, or insurance company, if the special excise tax of one per centum now imposed by law has been paid by such corporation, or stock company or insurance company or association."

The statement further says: "That if these bills become laws they will have repealed a burden of taxation now borne by the American people on a food product that all must consume, of \$107,000,000, and will have substituted in place thereof taxes that will probably aggregate between \$50,000,000 and \$60,000,000 that will be collected from persons at an income of more than \$5000."

Reinforcements are on the way to the federals, who are said to be hard pressed.

RIOTING SPREADS TO SUBURBS

The Loss of Life in Conflicts Between Mutinous and Loyal Troops Was Heavy, But All Foreigners Are Safe.

Pekin, March 2.—The situation here is greatly improved. The entire city remained quiet throughout the night, but great fires are still raging at distant parts. In the vicinity of the legation quarter everything was much quieter.

There was further looting on the outskirts of the city and further mutinies by soldiers are reported from nearby points. The authorities now see into have the situation in fair control. Foreigners especially are being well looked after.

President Yuan Shi Kai issued a manifesto to foreigners lamenting the outbreak and assuring them that all precautions had been taken to prevent a recurrence of the trouble. All foreigners are safe at the various legations, which are heavily guarded. Not one foreigner was killed or injured, but the houses of several were looted.

Willard D. Straight, former consul general at Mukden, and at present a representative of a New York financial syndicate, and his wife were forced to desert their residence and seek shelter at the American legation. They saved a number of valuable papers, but their residence was looted.

Throughout the greater part of Friday looting of stores and residences was going on in various parts of the city, and there have been several skirmishes between the loyal troops and the mutineers in the outskirts.

The looters captured in the act of carrying off property were executed on the spot by loyal soldiers, several regiments of whom are patrolling the streets.

The incendiary fires have now all been extinguished or have died out. The loss is estimated at \$15,000,000. The number of casualties among the civilians and soldiers is not known, but it is believed that the loss of life has been heavy.

The smouldering fires in many districts of the city are being raked over by throngs of the poor. Some detachments of the old style turbaned troops have been brought to the city, and it is reliably reported that Yuan Shi Kai is also bringing back the Manchurian troops who were recently ousted from the city because it was believed that they were a dangerous element.

Yuan Shi Kai, it is alleged, has been endeavoring to retain the loyalty of the soldiers in Pekin by permitting his bodyguard to do as they pleased. Only a small body of Yuan Shi Kai's men now remain loyal to him.

The streets have been thronged all day, but all the shops and houses are closed. Long lines of carts continue to bring valuables into the legation quarter, where they are stored in foreign banks and warehouses. Space being limited in the legation quarter, only a few of the better class Chinese are being permitted there. Many Christians, however, are being harbored in the mission compounds. The trains departing for Tien Tsin are crowded with fugitives.

The number of killed during the disturbances probably is under 100. This does not include Friday's casualties. The object of the rioters evidently was loot and not slaughter, and the continued firing apparently was designed to intimidate the people.

Yuan Shi Kai had been depended upon to preserve order in Pekin, but he failed completely. The mutineers even attacked his yamen.

A bullet narrowly missed William J. Calhoun, the American minister. So far, however, no foreigner has been killed or injured, so far as is known, though much foreign property has been destroyed by the rioters. It is impossible at this moment to foretell the results of the outbreak. It is even believed that foreign intervention is possible. Strong reinforcements to the various legation guards are being hurried to Pekin.

Ice Floes Sink River Boats.

Gallipolis, O., March 2.—All steam boats were forced to seek protection from what the rivermen say is the heaviest flow of ice that has passed here in fifteen years. The wharf boat at Proctorville, below here, sank, with a loss of \$5000. The steamer Bedford, valued at \$15,000, sunk at Ross Landing, will be a total loss.

Roosevelt Men Win in Tennessee.

Chattanooga, Tenn., March 2.—A delegate instructed for Roosevelt was named from Bradley county for the Third Tennessee Republican congressional district convention that takes place in Chattanooga next Monday. The Republicans of Marion county also instructed their delegates to vote for Roosevelt delegates at the Chattanooga convention.

News For Cocktail Drinkers.

Washington, March 2.—Secretary of Agriculture Wilson has approved a decision of the pure food board which holds that no cherries may be labeled "maraschino" unless they are maraschino cherries preserved in maraschino, a liquor prepared by distillation of the maraschino cherries.

SENATE ASKS FOR PANAMA LETTERS

Senator Accuses Roosevelt of Causing Revolution.

Washington, March 2.—The senate adopted a resolution calling on President Taft to submit to it all the correspondence with Colombia dealing with the acquisition of the Panama canal zone by the United States.

The resolution was offered by Senator Hitchcock, Democrat, of Nebraska, who urged its adoption in a speech in which he charged former President Roosevelt with participation in a conspiracy to foment the revolution by which Panama was lost to Colombia and the canal zone became the property of this country. There was no division on the vote of adoption.

"The conspiracy, which resulted in the dismemberment of the Colombian republic, occurred in the United States with the approval of the highest United States officials, and the spoliation was largely in the interest of a combination of influential capitalists who controlled the French Panama canal company," Senator Hitchcock declared in the course of his speech.

"The American people know," he continued, "that President Roosevelt cut short all negotiations with Colombia for possession of the canal strip and at the psychological moment ordered the Nashville of our navy to Colon, arriving there Nov. 2. That very day a Colombian gunboat arrived with troops for garrison duty at Panama."

"The next day, while representatives of the American navy were restraining the troops which Colombia had sent to preserve order and down any insurrection, that ridiculous comic opera revolution occurred in the town of Panama, a few miles away."

"The pretense for all this was that Colombia had refused to accept the United States terms as to the Panama canal."
